Selectmen's Meeting

REP. MacLEAN SUGGESTS TOWNS MEET TO DISCUSS HIGHWAY CHANGE

Rep. William Q. MacLean visited the Selectmen at their meeting to discuss two subjects of concern to Mattapoisett and neighboring towns. First Mr. MacLean said that the suggested Route 6 project should be the subject of a meeting between the towns of Mattapoisett, Marion and Wareham. He said he shared the Selectmen's concern about one of the two proposals which would involve widening the road to make four 12 foot lanes. He said that, with autos becoming necessarily smaller, a 12 foot lane would certainly be more than would be necessary for a secondary road of the future. He is aware of the local concern with the land taking which would be necessary to accomplish this widening. Winfield Jenney said that he was concerned about water pipes now laid under the

side of the road that would be under the road if the widening were done. MacLean said that this was the very sort of input that such a meeting would generate. The Selectmen told the Representative that 3 letters had been received opposing both the widening and the other proposal to create a two-lane road with a breakdown lane on the side of each lane.

The second subject that Rep. MacLean would like to have discussed in an area meeting concerns the Mattapoisett River Valley between the towns of Mattapoisett, Rochester, Marion and Fairhaven. Mr. Jenney said that Mattapoisett has spent between 8 and 9 thousand dollars for water search and has found a good supply. Now the Water Commissioners want to seek money from the townspeople to develop it. Rep. MacLean noted that a previous meeting has been cancelled because of Selectmen's protest that the meeting scheduled during the day could not be attended by Selectmen who work at that time. He said that he would contact the Mass. Department of Environmental Affairs to ask that the meeting be held during the evening when Selectmen can attend.

UNDERGROUND STORAGE HEARING

An application of Tremblay's Bus Company for permission to install 3 underground gasoline tanks with a storage capacity of 20,500 gallons at 91 County Road, Mattapoisett, was approved by Selectmen after a public hearing. The proposal was opposed by Manuel DelLima of 7 Martin Avenue who said that he objected on the grounds that it might be hoarding on the part of the bus company to beat the inflationary price of gasoline. He said that, in his opinion, the size of the tank should be based on weekly delivery or 2 weeks at most. John Scrocoa, representing the Tremblay Bus Company, said that the supplier of the gasoline had advised his company that they would make delivery only on a monthly basis because of their increased costs. He said that the operation required grades of gasoline and that the

tank capacity sought was based on a one month delivery of a full tank load for 31 vehicles. He said the company requires 60,000 gallons per year of regular gas. At present, with no storage for unleaded, this is being purchased at local stations but the bus company would like to contract for this from the supplier.

The Selectmen found this to be a reasonable supply for the demand and approved the tank installation.

AMBULANCE CHARGE DISCUSSED

Selectmen again discussed the possibility of charging for ambulance service. According to police records approximately 140 runs are made per year. The Selectmen will monitor the runs for 3 months to ascertain the revenue that could be gained to balance against the cost of clerical work.

ASKS RIGHT OF PASSAGE

Attorney James Huntoon, representing Daniel Mahoney, approached Selectmen with a petition to ask the town for a right of passage of Goodspeed Island over the sewer right of way from Depot Street. He said Mr. Mahoney would like to build one to three homes on the island. Select-

Fire Victims' Fund

Starting all over is something we've all wanted to do from time to time, but for the Tom Ferreira family of Mattapoisett it is not by choice. A devastating fire started by a faulty TV wire has left them homeless, escaping with their lives and what they were wearing. Initial damage estimates have tripled.

Since the fire Tom and Margaret have been left to start all over again. However, money is needed for winter clothing and other essentials destroyed by the fire. The family of 6 has been trying to relocate and hope to rebuild their lives and their home as soon as possible. A fund has been established at the New Bedford Five Cents Savings Bank and any donations would be greatly appreciated. Contributions may be sent to Mr. Real Breton, New Bedford Five Cents Saving Bank, 691 Purchase Street, New Bedford, MA. 02740.

"We want to help both the patient and the family cope with cancer," said Mrs. Desnoyers. "Some people think that the American Cancer Society is only concerned with research, but helping the cancer patient is another major ACS responsibility.

"Free clinics for detection of cancers of the breast, lung, colon and rectum, and other sites; seminars for medical professionals, transportation for patients, and a 'loan closet' of sick room supplies - these are just a few of the ways the ACS puts the contributions of Mattapoisett's citizens to work."

Mrs. Desnoyers urges Mattapoisett residents to join in the Mass. Cancer Crusade by becoming ACS volunteers, having a health checkup and giving generously when an American Cancer Society volunteer calls.

Mrs. Desnoyers is a graduate of Bishop Stang High School and holds a BA in Psychology and a BS in Nursing from Southeastern Massachusetts. She is currently employed by St. Luke's Hospital as a visiting nurse.

In past years, Mrs. Desnoyers has collected door-to-door for the cancer crusade and is currently active as a facilitator in the ACS Smokers' Liberation program, which is a program where a reformed smoker helps others kick the bad habit.

She is a member of the New Bedford YMCA and SMU Alumni. She is also a member-at-large of the Southeastern Massachusetts Health Planning and Development, Inc. She is married to Ronald Desnoyers.

ART WORK FOR RENT

You can rent almost anything these days, and art work is no exception. The Marion Art Center offers framed paintings, prints and photographs for rent for a two-month period. If you decide to sample the rental offerings at the Marion Art Center, you'll probably meet Susan Stoops, the new Rental Gallery Director. Susie, who has recently been hired for this new position, has a BFA from Syracuse University and an MA from the University of Mass. in Art History. She has held positions in research and teaching of art history, and hopes to use some of her knowledge of modern art in developing a new and more varied collection of works for the Rental Gallery.

Susan is now contacting artists to bring in work for an exhibition of the Rental Gallery collection April 11-23 in their Cecil Clark Davis Gallery. The paintings and prints will be on view for the public year-round in the new Patsy Francis Gallery, upstairs at the Marion Art Center.

Area artists who wish to have their work considered for the Rental Gallery, and anyone wishing to rent from the collection, should call 748-1266 for an appointment with Susie.

of suspended animation -- all these qualities are evident in the oil paintings of Richard Dougherty on exhibit in the Cecil Clark Davis Gallery from March 14 through April 9.

Dick is a full time instructor of painting and drawing at Swain School of Design, and his experience includes Director of Swain's Summer School and Evening School, and instructor of Drawing in Continuing Education at Bristol Community College. He studied at Swain as an undergraduate and received a BFA and MFA from the Maryland Institute. He has exhibited in group and one-man shows in Baltimore, Providence, New York City, and Swain, and won an award at Silvermine Artist Guild Painting Show, 1971.

The show will open with a reception for the artist, his guests and Marion Art Center members March 14, 7-9 p.m. The Marion Art Center is open to the public 1-4 p.m. Wednesday through Saturday at the corner of Main and Pleasant Streets, Marion.

DEATH VACATIONS IN MARION

"-an exotic tale- travels an unfamiliar land and touches the imagination royally." This is the way the New York Times described the play "Death Takes a Holiday", by Alberto Casella, rewritten for the American stage by Walter Ferris, which will be performed at the Marion Art Center on March 21, 22, 28, and 29 at 8:30 p.m.

Directors Marcelle Gauvin and Paul Hebert bring out the blend of drama, other-worldliness and comedy in this timeless play. The bizarre premise of Death deciding to become mortal for a three-day holiday (to find out why men fear him so, and to experience sensations which he has only observed) leads to much drama. The cast includes Paul Hebert, Karen Chase, Greg Leonard, Peg

Many members of the cast have worked together in several productions, bringing a good ensemble sense to the play. Ms. Gauvin and Mr. Hebert worked together in "Gaslight" and "Who's Afraid of Virginia Wolf?". Many of the cast members appeared in "Suddenly Last Summer", "The Lion in Winter", "6 Rms Riv Vu" and "The Country Girl". Mr. Hebert got his start on the Marion stage in "6 Rms Riv Vu", directed by Nancylee Gaucher, and now returns as co-director/actor. Ms. Gauvin, who impressed area theater goers in "Belle of Amherst", worked as co-director on "Ten Little Indians" in Bourne and is making her Marion debut.

With such an absorbing play, an experienced cast and crew, and fine properties furnished by Acorn Hill Antiques of Middleboro, the Marion Art Center production of "Death Takes a Holiday" should be an interesting and rewarding evening of entertainment. Reservations should be made by calling 748-1266.

ORR 41, J. BURKE 39 IN TOURNAMENT PLAY

In the opening of the first quarter Burke's awesome height accounted for many rebounds and points from underneath as Burke led at the end of the first eight minutes of play with a 12-7 tally.

The second period saw ORR's quickness begin to pay off as they forced Burke to turn over the ball and take bad percentage shots. The locals scored the last five points at the half as Laura Verville added a layup and a free throw and Darcy Pina contributed a jumper to the cause with the score standing at ORR 22 - Burke 18 at the half.

During the third quarter ORR had trouble getting into their offense and could only score six points for the period. Duncan, the Burke center, dominated the boards to score six of their ten points causing a deadlock at 28-28 with one quarter to go.

The final quarter was opened with four points by Burke. ORR got their defense together and held the opposition scoreless for three minutes. Crowe came back with five points giving ORR a 33-32 advantage. Both teams sunk a few more to bring the tally to 35-35 with three minutes left. A jumper by Ainslie, a repeat performance by Pina, and a shot underneath by Crowe made it 41-35 for ORR. With :19 left Burke stole the ball twice and converted their ef-

ORR LOSS TO MARTHA'S VINEYARD 46-24 ENDS SEASON PLAY

ORR jumped out into the first period with a good defense and a nicely run offense ending the first stanza with a 10-6 lead.

The second period unfortunately was not as successful as the first for the Bulldogs as they lost their lead, regained it with two free throws by Worden, only to lose it as the islanders took off with a 10 point rampage to lead at the half 23-14.

The third frame saw the Vineyard continuing to score and rebound as their press took advantage of ORR. They added six more points to their score card and ballooned their lead to 29-22 over ORR.

The fourth quarter was the same story as Martha's Vineyard scored 17 to ORR's

Cancer Screening

COLORECTAL CANCER SCREENING CLINIC

The Wareham Business and Professional Women's Club with the American Cancer Society will conduct a Colorectal Cancer Screening Clinic.

Cancer of the Colon and Rectum

This year, approximately 100,000 Americans will develop colorectal cancer, more than any other cancer except non-melanoma skin cancers. It occurs about equally in men and women. Over 50,000 persons die of this disease annually.

Though cancer does not discriminate between sex or race, we do know that chances of contacting this form increase dramatically with age. It usually begins with the development of a polyp or lesion in the large bowel or rectum. Because there are no initial signs or symptoms, the victim is often unaware that he has cancer until is too late.

Yet, if colorectal cancer is diagnosed and treated early, almost two out of three patients might be saved.

Program Goals

Since earlier detection of colorectal cancer is the KEY to increased survival rates, priority attention must be given to the

screening of asymptomatic individuals.

For this reason, the American Cancer Society has launched a nationwide Public Education Program with these goals:

1. To increase public awareness of colorectal cancer and the best available means of detecting the disease when chances of cure are best.

2. To urge all adults, especially those over 40, to protect themselves against colorectal cancer by having regular health checkups including recommended detection tests.

3. To provide opportunities for target population groups to participate in special educational projects on colorectal cancer intended to demonstrate the value of recommended detection tests and to encourage their adoption as good health habits.

Methods of Detection

1. Digital rectal examinations
2. Proctosigmoidoscopy
3. Test for occult (hidden) blood in the stool
4. Contrast Studies and Colonoscopy

Test for Occult Blood in the Stool

This is a simple test for hidden blood in the stool that can help detect early intestinal disease - including colon and rectum cancer - before symptoms appear, while it is still very curable.

The patient participates in the "do-it-yourself" test by preparing guaiac impregnated slides with two stool specimens from three consecutive bowel movements. A special high roughage/meat-free diet is followed to reduce the number of false positives and to help uncover "silent" lesions which may bleed only intermittently.

Upon completion of the slide series, the patient returns them in a special envelope to a designated place for reading. The presence of blood in the specimens calls for further examination.

The do-it-yourself guaiac slide test is the most economical and widely applicable screening method for colorectal cancer. It detects clinically-significant quantities of blood; it is easy to perform, reliable and accurate, inexpensive and harmless.

Slides may be picked up at the Senior centers in Wareham and Marion, but specimens are not to be returned until the week of March 16 and no later than March 22. The slides are available at the following locations: Onset - Onset Cash Market, Onset Bay Pharmacy; Wareham - Angelo's, First National, A & P, Dunningtons, Brook's, Wareham Pharmacy, Jay's; Marion - Marion Pharmacy.

The slides are to be returned either by mail or drop off at Cranberry Travel, Main Street, Wareham, Mass. 02571.

Medical advisor for this worthwhile test is Dr. John Howard. Co-chairmen are Corine Hambly and Ruth Kelenosy. For any further information call 748-0560 or 295-3858.

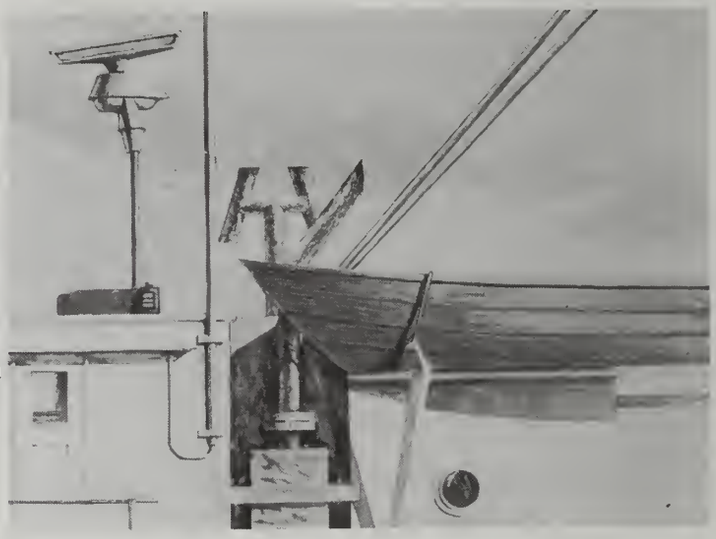
N.B. Whaling Museum

WATERCOLORS BY J. UNDERWOOD

A special exhibition of watercolors by Julian Underwood will be on view at the Whaling Museum in New Bedford from March 22 through May 18, 1980.

The largest single element of Underwood's work depicts the scallopers and draggers of New Bedford's fishing fleet. Strong lines and distinctive colors characterize these detailed views of fishing vessels at the city's wharves. Also included in the exhibition are views of cranberry bogs, the Westport River and the industrial buildings of New Bedford's textile past.



The artist states that all of the watercolors in this exhibition "were painted within an hour's drive of home (South Dartmouth)".

Mr. Underwood received his A.B. and M. Arch. from Harvard University. He was a practicing architect in New Bedford from 1948-1974. In addition to studying art

gram center. The center is in the planning stages and is to be constructed on the present Council resident Camp Wind-in-the-Pines site in Plymouth.

According to Barbara Spake, Council Cookie Sale Director, each participating Girl Scout troop will receive 25 cents per box sold; but, if a Girl Scout troop participated in the fall 1979 cookie sale, that troop will receive 30 cents per box sold for their participation in the second sale. This money enables a troop to plan a variety of activities such as trips to points of interest, special camping trips or trips out of state. Mrs. Spake said that the Burry Company, bakers of the cookies, receives approximately 58 cents per box while the Council receives 67 cents per box sold.

It costs the Council $42 per member, per year to operate. Income derived by the Council comes from the cookie sales, support from 10 United Ways, camp fees, fund drives in 13 non-United Way communities, and gifts and bequests.

That income is used to deliver services to girls. The Council employs an executive and business staff that provides management skills, services and continuity that keep Girl Scouting growing and running smoothly in southeastern Massachusetts. Ad-

A. To see if the Town will vote to amend the Zoning By-Law of the Town of Mattapoisett by deleting in its entirety Section "B.2. Establishment of Official Flood Plain Zoning Map" of the "Regulation of Flood Hazard Areas" and substituting the following therefore:

" 2. Establishment of Official Flood Plain Zoning Map.

The Flood Plain District is herein established as an overlay district. The underlying permitted uses are allowed, provided they meet the following additional requirements, as well as those of the Massachusetts State Building Code dealing with construction in floodplains and coastal high hazards.

The Flood Plain District includes all special flood hazard areas designated as Zones A, A1-30 on the Mattapoisett Flood Insurance Rate Map (FIRM), dated December 3, 1979, on file with the Town Clerk, Planning Board and Building Inspector. These maps as well as the accompanying Mattapoisett Flood Insurance Study are incorporated herein by reference."

or take any other action relative thereto.

B. To see if the Town will vote to amend the Zoning By-Law of the Town of Mattapoisett by adding the following paragraph 3 to Section B.8 of the "Regulations of Flood Hazard Areas":

" Located within the Flood Plain District are areas designated as coastal high hazard areas (Zone V). Since these areas are extremely hazardous due to high velocity waters from tidal surges and hurricane wave wash, the following provision shall apply:

a. All new construction shall be located landward of the reach of the mean high tide."

or take any other action relative thereto.

C. To see if the Town will vote to amend the Zoning By-Law of the Town of Mattapoisett by deleting in its entirety Section VII 3. Variances, and substituting the following Section VII 3."

"3. Variances. To authorize upon appeal, or upon petition with respect to a particular parcel of land or to an existing structure thereon, a variance from the terms of this By-Law, including the restrictions governing use of any such parcel or structure, where the Board of Appeals specifically finds that owing to circumstances relating to the soil conditions, shape, or topography of such land or structures and especially affecting such land or structures but not affecting generally the zoning district in which it is located, a literal enforcement of the provisions of this By-Law would involve substantial hardship, financial or otherwise, to the petitioner or appellant, and that desirable relief may be granted without substantial detriment to the public good and without nullifying or substantially derogating from the intent or purpose of such ordinance or By-Law."

or take any other action thereon.

D. To see if the Town will vote to amend the following sections of the Zoning By-Law of the Town of Mattapoisett:

Subsection 4. of Section V B entitled "Use Regulations - Residence (W 30) Permitted Uses:", Subsection 2. of Section V C entitled "Use Regulations - Village Residence, Permitted Use: (VR 10)" and Subsection 2 of Section V D entitled "Use Regulations - Marine Residence District, Permitted Uses: (MR)" by striking the words "If authorized by Board of Appeals:" and substituting the following:

"The following uses, if authorized by a special permit granted by the Board of Appeals pursuant to Section VII, B.2. of the Zoning By-Laws.",

or take any other action thereon.

E. To see if the Town will vote to amend the Zoning By-Law to create a new 20,000-square foot residential district and to make the following amendments and additions to the Town of Mattapoisett Zoning By-Law:

1. That the zoning map entitled "Zoning Map Town of Mattapoisett, Massachusetts, dated November 1, 1967," as revised, as referred to in the first paragraph of Section IV B. of the Zoning By-Law be revised to include a Residence 20 (R20) District bounded and described as follows:

2. That Line 2 of the first sentence of Section IV A. entitled "Establishment of Districts," be amended by deleting the number "ten (10)" and inserting in place thereof, the number "eleven (11)."

3. That the following addition be made to the list of zoning districts set forth in Section IV A. "Residence 20 (R20)."

4. That the first paragraph of Section IV B. be amended by deleting it in its entirety and by inserting the following in place thereof:
